Dear (city councillor)

I'm a resident of the Wolseley community and am extremely upset about Winnipeg Transit's plans to turn our neighbourhood into a major bus thoroughfare.

We live in a quiet, family oriented community, but I fear Transit's plans to run so many huge diesel buses through here, hour after hour, all day long, will destroy the peaceful tranquility that makes this a special place to live.

I'm also angry with Transit for its poor communication. We were aware Transit was making some changes across the city in name of efficiency, but we had no idea of the impact on our neighbourhood until recently.

Why weren't we consulted as Transit developed its routes? Why did we have to learn about the new routes through word of mouth? Why is it a done deal?

Why is Transit so focused on straight line routes on a map, rather than on actually serving the needs of each community?

This is a triumph of bureaucratic dogma over ordinary families.

Please put a stop to this outrageous plan and initiate proper consultations with the residents of Wolseley to find out what we really need.

Sincerely,

Jane Smith
