May ??, 2024

Dear (city councillor)

I live in the Wolseley community. I'm writing to ask you and other city councillors to put a stop to Winnipeg Transit's plans to turn my community into a bus thoroughfare.

We only recently learned of Transit's plans to run eight buses an hour all day long through our neighbourhood. Despite Transit's claim that they consulted for several years, I can assure you they never asked my opinion.

None of my neighbours knew about the plan to disrupt our quiet community with noisy, smelly diesel buses. If we'd been asked, we would have told you we don't want it. But no one asked.

Wolseley is a walkable community. Our kids are safe cycling along the roads. We can go for walks throughout and enjoy the quiet green spaces. All of that will change when buses are rolling past every few minutes.

Please cancel Transit's plan as it now stands. We support the goal of an efficient bus service, but the current plan is anything but that.

Please hold real consultations with the residents of Wolseley before going forward with changes that will destroy our community.

Sincerely,

Jane Smith
